1	Storm water management - Potential sink holes	Bob contacted two companies (Entech & Spotts, Stevens & McCoy). Afterwards Bob received a proposal from Entech which included the entire community. The cost for Entech was much more than Kipcon. The Board voted to terminate the contract with Kipcon and approve the proposal from Entech. Task 1 was completed on June 7th. They expect to have plans by the end of June 2023. Task 2 was completed and Entech is waiting for documents from the Township. 10/31 Entech sent the plan noting the problem areas. They will prepare plans for preliminary improvements to address the problem areas. 2/23/24 Diane forwarded the plans from Entech to the Board to review. Entech recommended two Geotechnical Consultants (Earth Engineering & Barry Isett & Associates). 3/18/24 Diane contacted Earth Engineering & Barry Isett & Associates for construction plan bids. Earth Engineering declined, as they perform testing for storm water systems, not design. They recommended McCarthy Engineering. Diane received a bid from McCarty, Barry Issett, Entech and C2C for the pre-construction phase. Bob met with Schlouch and Brian K who is an engineer in March 2025. Schlouch will present a construction plan for the BOD to review. Bob met with Schlouch in July and Schlouch sent Bob a proposal for each block. Diane suggested getting a price from Pennaco, Bob was going to meet with Dave from Pennaco. The job is too big for Pennaco, Bob was going to look for another local vendor.
